OUTLINES.

The relief committee at San Francisco has been astounded and disappointed by a statement from President Roosevelt that only $300,000 of the Government's $2,500,000 is available for the distressed people; more money is sorely needed——Looters are carrying valuables from the ruins of residences and stores in San Francisco and the officials are powerless to prevent it——Three hundred and thirty-three bodies have been recovered at San Francisco——Floods are sending down mud which is overwhelming the towns near Mount Vesuvius——Governor Magoon of the Canal zone holds four offices; canal official salaries are to be cut——In the House yesterday, Democratic Leader John Sharp Williams concluded his two days speech on the tariff, denouncing protectionism as "rank socialism, rank agrarianism, and rank communism"——Paris is in a state of great anxiety over the fear of a revolutionary outbreak, and the city is full of troops; the alarm has been accentuated by the explosion of a boom under a great railway bridge——New York market: oMney on call nominal, no loans, time loans firm; spot cotton 5 points off, closing quiet at 11.70; flour steady but slow; wheat steady; corn firm, No. 2, 57 nominal; oats steady, mixed, 37 to 37 1-2; turpentine quiet, 67 to 67 1-2; rosin quiet, strained common to good, 4.00 to 4.05.

Republican State Chairman Rollins will have to take some time off to answer—well rather reply to—Judge Bynum's poser.

The first time any train on any railroad except, possibly, the W. & N., reaches Wilmington on schedule time, please give three toots of the whistle.

"Women are adept at home decoration and handle paint with deftness," says a woman magazine writer. Men will be satisfied if they don't get to painting things a vermillion hue, after the manner of men.

The Star congratulates Editor J. A. Thomas, of the Louisburg Times. He has adopted the eight page form and considerably improved his paper. The Times has always been a credit to its town and the people of Franklin county ought to be proud of it.

Says the Raleigh News and Observer: "Hobson couldn't win until he got married." Such remarks as that will simply give old batchelors a chance to say that the public shows its sympathy with an individual just the same as with a community in times of earthquakes and conflagrations.

Mr. Howard C. Curtis, who several months ago leased the Southport Herald to Mr. Harry Mintz, has resumed control of the paper. This week Editor Curtis enlarged his paper from a seven-column folio to an eight-column folio, and makes several improvements that the patrons of the paper will no doubt appreciate. The Star renews its best wishes for the success of the Herald.

When the recent earthquake and fire disaster overtook San Francisco the railroads and express companies were quick to offer transportation free to all donations for the sufferers. Many railroad companies made large money donations and it is estimated that the freight charges given up by the roads amounts to not less than $3,450,000. This surely was a noble contribution for the benefit of humanity.

The Republican row in North Carolina is scheduled to move ahead till the Blackburn train side tracks the Rollins train. The Greensboro Weekly Tar Heel (Rep.), says: "Peace did you say?" There will be no peace until there is a new deal by which the rights of the people are restored to them and the one-man power dethroned in Eastern and in Western North Carolina. Revolutions do not go backward."

Captain Richard Pearson Hobson, although defeated for the nomination for Congress in the Sixth Alabama district two years ago, won the nomination by a majority of nearly 500 in the recent Democratic primary. He won by trying again, and his ultimate success teaches us that there is undying truth in the addage: "If at first you don't succeed, try, try again." Little things like two or three defeats or disappointments should make no young man gets skulky or grouchy—or jine the radicals.

CARNIVAL NEXT WEEK

Clean and Wholesome Amusement Is Promised By Juniors In Their Show

THE PIERCE AMUSEMENT CO.

Unqualified Endorsement By Press From Several Eastern Carolina Towns—Committees Hard at Work for a Big Success.

A week from to-morrow and the big gola week of the Junior Order of United American Mechanics, on Fifth, between Church and Queen streets, will be on in all of its glory. The committees in charge are working unceasingly to make a big success of the enterprise and confidently expect a realization of their fondest hopes. If the weather continues good, immense crowds will attend and a week of fun and merriment will be the order with the young people.

The Pierce Amusement Company which will furnish the attractions for the carnival is in Newbern this week and from all over Eastern North Carolina come the most flattering endorsements of the shows and the people at the head of them. Mr. Pierce, the Director General of the enterprise has had 17 years experience catering to the amusement public and that is a guarantee that he is a past master in the art. Of the recent appearance of the Pierce attractions in Goldsboro, the Argus of that city, says:

"The Pierce Amusement Company closes a successful week here to-night. It has been a week of unalloyed pleasure and only words of praise are upon all sides. It has been noticed and commented favorably upon by our best people that there is not the usual objectional following of swindlers, etc., with the Pierce Company that follows the wake of other amusement companies. Mr. Pierce's first requisite is cleanliness and morality, and to this alone may be credited his unbounded success.

"Mr. George Marr, general agent for the company, made several claims when his company opened here. The company closes here to-night and all these claims have been lived up to to the letter. The best people of the community have been in attendance during the week.

"Goldsboro has had samples of Carnival Companies before, which gave the very name of Carnival a black eye, but it was up to Pierce to bring the first real clean company to our city. It has been a pleasure to take a lady down the 'Pierce Pike,' which was devoid of fakes or suggestive attractions. It is the finest, cleanest and best organization of its kind which has ever toured this section of the country, and a return engagement will be welcomed by our best people."

Adrain Barlow Gives Bond.

Adrain Barlow, the young white man placed in jail last Monday in connection with the movement by the police to put a stop to Sunday liquor selling, gave bond and was released yesterday. His sister put up a cash bond of $50 for her brother and he was released until the next term of the Superior Court.

STRAWBERRY MOVEMENT

Sixty-Three Solid Car Loads Went Forward Yesterday—Chadbourn Wants 100 Refrigerators.

Shipments of strawberries through South Rocky Mount yesterday reached the high water mark of the season, consisting of 63 solid refrigerator cars of 400 crates each and several thousand crates by Express. The largest shipments continue from the W., C. & A. territory but this week long trains of the yellow cars will be rumbling North from the W. & W. and the other sections in the East Carolina territory. New York led the distribution yesterday with 16 cars, while Philadelphia received 12, Boston, 11; Buffalo, 6; two each to Providence, Springfield, Pittsburg, Scranton, Albany, Cleveland and Worcester and one each to Washington, Waterbury, Morristown, Burlington, Vt., Cincinnati and Baltimore.

New York on Friday quoted 13 to 20 cents; Philadelphia 12 to 20 cents; Baltimore, 12 to 20; Boston, 16 to 18, and Pittsburg, 14 to 17. The heavy shipments to Pittsburg on Thursday unfortunately went in on a low market, the prices the day before having been the best offered.

This week the shipment of berries from the district is expected to reach as high as 200 cars per day. Shippers at Chadbourn alone yesterday made requisition for 100 iced cars and everyone of them is expected to be filled with fruit from the ripening over Sunday. All trains throughout the belt yesterday were crowded with pickers going to and from the berry fields at the week's end. In the berry belt just now there is "no time for swapping horses" and the producers and shippers are taking advantage of every minute from dawn to twilight.

WILMINGTON BAPTIST UNION

Second Day's Session at Atkinson Fraught With Interesting and Profitable Discussion.

(Special Star Correspondence.)

Atkinson, N. C., April 28.—The Wilmington Baptist Union opened its second day's session of the Sunday School convention with an address by Dr. Fred Hale, closing the discussion of the topic started Friday night—"The Pastor's Place in the Sunday School." This was followed by J. P. Herring and Geo. E. Leftwich on, "How I Prepare the Lesson." Miss Hester Struthers, teacher of the infant class in the Wilmington First Baptist church Sunday School, read a splendid paper on, "The Primary Work." Geo. E. Leftwich spoke on, "The Best Thing in Our Sunday School," indicating that it is "Loyalty, at all times, and in all circumstances." In discussing the next topic, "The Sunday School and Soul Winning," Dr. Hale said that the object of the Sunday School is mainly, to bring the child to Christ for salvation and service. J. H. Dobson spoke on "Our Greatest Difficulty," saying that it is indifference and faithlessness on the part of church members. J. A. Smith opened the discussion of the topic, "The Sunday School as an Educator," and was followed by a well written paper by J. A. McKaughan. "The Superintendent and His Work," was spoken to by two superintendents—J. T. Bland, of Burgaw, and C. C. Rice, of the Brooklyn School, two Baraca young men, R. A. Dyke, and E. L. Hines, spoke interestingly on the topic, "Young Men for Young Men." After a lively discussion, the following resolution, with but one dissenting vote, was adopted:

"We recommend that contiguous churches in the various localities take the matter up as early as convenient, and appoint committees to confer with similar committee from the churches which can conveniently and advantageously co-operate in the formation of pastorates, and in locating their pastors in their midst."

The next meeting of the Union will be held at Riley's Creek church, on Friday before the fifth Sunday in July.

Rev. J. A. Smith preached at the closing service at night on "Eternal Life."

The exercises will be continued through Sunday, the first item on the programme bring a paper on, "Music in the Sunday School," to be read by Miss A. M. Hannah. This will be followed by an address on "The Sunday School in Our Mission Fields," by Rev. M. C. Walton. At 11 o'clock the sermon will be preached by Rev. W. B. Rivenbark.

At Lumina Last Night.

Last night witnessed the formal opening of the series of delightful week-end dances that are always a feature during the Summer at Lumina. Many young people attended and from reports, all had a merry time. The music was good and the weather was such as to make an evening by the ocean delightful. The last car from the beach reached the city a little after midnight.

THE FEDERAL COURT

Spring Term For Eastern District Convenes In This City Tomorrow Morning

JURORS FROM THE COUNTIES

Large Number of Cases on the Docket—Several in Admiralty of Interest— Case of The Mutineers Now in Jail Here.

The United States District and Circuit Courts for the Eastern District of North Carolina, Judge Thos. R. Purnell presiding, will convene in this city to-morrow morning at 10 o'clock and will remain in session a week or longer if the unusually heavy docket is not completed within the time prescribed. In all about 60 District Court cases had been docketed up to last night and others will be docketed as the commissioners from the various counties begin coming in to-morrow. Most of these cases are from the up-country in prohibition sections where "retailing" is frequent. However, there are several postoffice cases and others that will be of more than the usual interest.

One of these cases is that of Victor Rube a Swedish seaman from the Revenue Cutter Seminole staationed at this port, charged with insubordination and mutinous conduct aboard the ship. The alleged offence occurred while the Seminole was attempting to save the schooner Myrtle Tunnell which was driven ashore on Frying Pan during a recent storm. Rube refused to obey orders to go on the derelict and throw off cross-ties as he was ordered to do, claiming that was not a part of his duties as a member of the Revenue Cutter service.

Other cases of more than the usual interest are those of Mary Flowers, a colored woman, charged with feloniously appropriating a special delivery letter from the postoffice at Fayetteville and James Johnson, a negro with several aliases, charged with robbing the postoffice at Elmore, Scotland county, and believed to be implicated in several other postoffice robberies in this State. Another case is against Sidney McQueen, a well known Fayetteville negro, charged with intimidating witnesses. Among still other cases out of the routine is that of Lawrence Dudley, a one-armed white man of this city, charged with stealing a postal clerk's grip sack, containing government property, from a room in the Wilmington postoffice just after the late term of court.

The admiralty docket contains a number of cases of interest. Among them are the libel of the schooner Ames by the owners of the tug Blanche; the libel of the steamer Wilmington by the owners of the Ames; the libel of the owners of the tug Blanche upon wreckage from the Myrtle Tunnell, and the libel of the schooner Harry A. Berwind by the negro mutineers Adams and Sawyer, who claim a balance due on seaman's wages. However, since the conviction of the mutineers, it is not expected that their libel will be pressed as seamen, under the law, forfeit their wages, when guilty of mutinous conduct. In addition to these there are a number of other minor matters of admiralty, most of which will be disposed of during the present term.

So far the decision of the United States Supreme Court as to a new trial for Adams and Sawyer has not been handed down, but in all probability it will be rendered within the next day or two, as the Supreme Court adjourns shortly. If a new trial is granted it is hardly likely it would take place at this term, as the witnesses could not be gotten in time, but if a new trial is refused the men will re resentenced at once.

The jurors summoned for the term from the several counties in the district are as follows:

Bladen—J. M. Russ, C. F. Daniel, J. M. Meshaw, J. N. Corbett.

Brunswick—Curtis Tripp, John S. Grissett, B. F. Greer, W. E. Knox.

Columbus—John Edmond, G. W. Applewhite, D. M. Hobbs, Caleb Spivey.

Cumberland—John Sessoms, B. R. Holmes, Alexander Cain, Love McDaniel.

Duplin—B. F. Bennett, R. M. Williams, W. B. Hargrove, D. S. Boney.

New Hanover — William Struthers, Jr., William Calder, Benjamin Scott, Oscar Pearsall, W. J. Woodward, Eben Piner, S. W. Sanders, Daniel S. Bender.

Pender—J. H. Moore, J. N. Westbrook, G. P. Duncan, E. M. Johnson.

Richmond—Columbus Bowles, J. P. Leak, S. T. Morse, George McDonald.

Robeson — Giles Davis, John S. Brown, Alexander Parham, J. E. Price, Simpson Humphrey.

Sampson — Lovett Warren, Uriah Sessoms, E. L. Crumpler, Henry A. Cooper.

Scotland — J. W. McQueen, D. A. Patterson, D. G. Woodard, J. M. Williamson, and J. L. McNair.

COMING OF CONGRESSMEN.

Visit of Distinguished Party This Week Being Looked Forward to With Much Interest Here.

There was much interest in business circles yesterday at the announcement of the expected visit of the delegation of prominent Congressmen to look after the interest of the local river and harbor work here. Arrangements for a fitting reception to the distinguished party go on apace and the visitors will be given a very cordial welcome to the city. The meeting of the Chamber of Commerce Wednesday at noon will be largely attended and the addresses by the distinguished men will be heard with great interest. In this conection the following special from Washington will be read with interest:

"A sub-committee from the House Committee on Rivers and Harbors will leave here Sunday night for Virginia and North Carolina points for the purpose of studying river and harbor conditions at different points in the two States. A trip will be made through the Dismal Swamp canal. Elizabeth City will be visited on Tuesday, and Wednesday will be spent in Wilmington. The sub-committee which will be accompanied by Representatives Small and Patterson, of North Carolina, and Maynard, of Virginia, consists of Representatives J. E. Ransday, of Louisiana; J. H. Davidson, of Wisconsin; W. E. Jones, of Washington, and B. G. Humphreys, of Mississippi. The Chamber of Commerce in the two North Carolina towns will meet the Congresisonal delegation and look out for their entertainment. While there will be no river and harbor bill this year, the members are getting information for the preparation of such a measure at the next session and hope to secure a liberal appropriation."

MANY WILL THRONG BEACH

First Day of Real Summer Will Attract Many to Favorite Resort—Concert—Improvements.

This, the first real afternoon of Summer, if the weather is anything at all like that of yesterday, will claim many visitors for Wrightsville Beach. With the half-hour schedule of suburban cars, now regularly in effect, there will be ample accommodations for all and it is confidently expected the travel will be the largest on record for 1906. The beach is already alive with Summer "swallows" and the appearance there to-day will be very much that of a Sunday in mid-June. Visitors will have an opportunity to see the improvements that are under way and may spend a pleasant afternoon anywhere along the beach front. The usual attractive concert will be offered by Prof. Kneissell's orchestra, the programme for which is as follows:

Part 1.

March—Tenth Regiment..R. B. Hall.
Overture—"To Bohemian Girl".....Balfe.
Concert Waltz—"To Thee" .....Waldteufel
Egyptian Patrol—A Stroll Through Egypt .....J. J. Derwin.
March—From "Aide" .....Verdi

Part II.

Selection—"The Storks" .....Luders
Humoresque—"The Turtles' Brigade" .....P. Steel
Intermezzo—"The Troubadours" .....W. C. Powell
Falling Star—"Reverie," .....B. Richmond
March—"American Republic".....H. Theile.

Some of the improvements now under way are the new cottage for Mr. Percy R. Albright and the new bowling alley and bath houses at the Carolina Yacht Club; the board walk between the Seashore and Tarryomoore hotels has been widened and rebuilt; the Seashore Hotel has been repainted and the Tarrymoore has been remodelled; Mrs. Northrop's cottage has been much improved and enlarged; that of Mr. George Rountree has been remodelled and many other improvements have been made.

Unusual Window Exhibition.

A rara avis, seldom seen at close range, is on exhibition in a large bath tub filled with water, in the show window of Mr. S. W. Sander's grocery store. It is an ocean loon, black-feathered with white specks, resembling somewhat the plumage of a silver spangled chicken, with a bill or beak similar in appearance to that of a pelican. It is web-footed, yet one of the curious things about his loonship is that he cannot stand alone and is as helpless out of the water as a turtle is when turned on its back. It was captured near Jacksonville, N. C., but what ill wind blew it ashore could not be ascertained.

VERDICT FOR $25,000

Heavy Damages Given Against Seaboard Air Line Favor Wilmington Man

YORKSVILLE, S. C. LAST WEEK

Original Amount Asked Was $60,000 for Death of Mrs. T. S. McManus, In Catawba Junction Wreck September, 1904.

Mr. T. S. McManus, manager of the Southern Bell Telephone exchange in this city, returned yesterday morning from Yorkville, S. C., where he had been in attendance upon the session of the Court of Common Pleas, corresponding to the Superior Court in this State, as a witness in the case brought by the estate of his late wife, Mrs. T. S. McManus, against the Seaboard Air Line, for damages because of her death in the Catawba Junction wreck, beyond Monroe, last September a year ago. It will be remembered that Mrs. McManus was going on a visit to her old home in Atlanta and was in the wreck of the train that plunged through the trestle. She was not killed at that time but another train closely following was not advised by any signal of the trouble ahead and it dashed into the wreck of the first train. In this accident, Mrs. McManus lost her life. The case was completed at Yorkville Thursday night and the estate of Mrs. McManus was awarded a verdict of $25,000 damages. The case is thus reported in a special from Yorkville to the Charleston News and Courier:

"Yorkville, April 27.—Tuesday afternoon the case of J. Otis Hull, administrator of Annie S. McManus, deceased, against the Seaboard Air Line Railroad, was taken up in the Court of Common Pleas. The plaintiff asked for $60,000 damages, actual and punitive, and for mental anguish. Mrs. McManus was one of the victims of the wreck at Whisonant trestle, near Catawba Junction, in this county, on September 9, 1905, when a passenger train, which was following fell in on it, killing Mrs. McManus and several others.

"The plaintiff introduced a number of witnesses, who testified that some of the timbers in the structure were rotten, while the defence introduced not less than a score, and among them were some of the best men in the county, who testified that only a small proportion of the sap part or some of the timbers was decayed, and that there was more than sufficient of perfectly sound timber in each piece to sustain its proportion of the structure.

"The hearing was continued until yesterday afternoon, when the case was given to the jury, which, after considering it for a short time, returned a verdict in favor of the plaintiff for $25,000.

"This is the second largest verdict yet rendered by a York county jury against a corporation, the largest being that in the Brickman case on account of the Fishing Creek wreck, which was for $55,000."

The full amount of damages asked for was $60,000. The jury was out an hour and twenty minutes, some of the jurors favoring an even larger amount. Counsel for the plaintiff were Wilson & Wilson, of Rock Hill, S. C., while J. Lyle Glenn, of Chester, and W. B. McCaw, of Yorkville, appeared for the railroad Company.

WAS SENATOR SIMMONS DODGING?

The Republicans of North Carolina have been entertaining us with a good sized rumpus and to all appearances North Carolina Democrats are on the verge of one. We judge so from dispatches which have been sent out from Washington the past few days concerning the differences between Representative Claude Kitchin and Senator Simmons concerning the so-called Southern Railway mail subsidy The postoffice appropriation bill contains a provision allowing the Southern Railway $165,000 extra pay to carry Southern mails, provided a fast schedule is maintained in order to ensure the quickest possible transit for mails between New York and other Northern points to Southern points as far as New Orleans. Several of the North Carolina Representatives have favored the mail subsidy and others opposed it, including the two Kitchins. It appears that the Hon. Claude Kitchin is having a good deal to say about the position of Senators Simmons and Overman as to the subsidy. What the Congressman is saying is not calculated to ensure harmony in Democratic circles in this State, and it is to be regretted if the whole thing is premature, which in all probability it is.

The latest from Washington concerning the situation comes in special dispatches to the Greensboro Industrial News (Rep.), and the Raleigh News and Observer (Dem.), under date of Washington, April 27th. This we get from the Republican source:

"The North Carolina Senators have been brought face to face with an embrassing situation relative to a pending matter of legislation. Representative Claude Kitchin came out in a statement today in which he vigorously attacked Senator-Chairman Simmons for his attitude toward the item in the postal supply bill carrying the appropriation for the fast mail subsidy. The Senator-Chairman has offered an amendment to the subsidy appropriation in which he seeks to devise a way for himself and Senator Overman to avoid taking a positive stand one way or other toward the fast mail subsidy. This amendment proposes that discretion as to the expenditure shall be left with the Postmaster General. If the Postmaster General decides that the fast mail is for the benefit of the people through which the Southern runs, then the subsidy shall be paid. If he decided otherwise then the appropriation made available shall revert to the Treasury. Representative Kitchin states that it ill becomes the Democratic leader in the State and the chairman of the party organization to leave discretion on a matter of this kind with the chairman of the Republican National Committee, namely, Postmaster General Cortelyou. The inlication are that bad feeling will develop between the House members of the North Carolina delegation, who supported the fast mail subsidy and Senator Overman and Senator-Chairman Simmons. There are people here who believe it will become an issue in the coming State campaign."

The Republicans will doubtless make the most of this situation and will roll it as a sweet morsel under their tongues, so to speak. We have given above what the correspondent of the Republican paper says and below is part of an interview which Mr. Thos. J. Pence, Washington correspondent of Democratic Raleigh News and Observer, sent his paper on the same date as the dispatch sent to the Industrial News. Mr. Pence says:

"Since the publication of the interview of the North Carolina Senators in this correspondence, in which they announced that they were studying the questions involved in the fast mail appropriation for the Southern Railroad before reaching a decision as to how they will vote there has been renewed discussion of the position on the part of North Carolina members of Congress. The introduction of the amendment by Senator Simmons, placing responsibility with the Postmaster General for the expenditure of the appropriation served to increase interest and it was the princi pal subject of discussion on the House side today. Many of the members are manifesting as deep interest as when the appropriation to the Southern Railroad was before the House. Representative Claude Kitchin, when asked for his views on the amendment made some highly interesting remarks. He said:

"'Well, I think the Senator in offering his amendment, putting the granting of the railroad subsidy in discretion of the Postmaster General overlooked the fact that the bill as it is contains and has for years contained such a provision. Although the terms of this provision of the bill make it discretionary with the Postmaster General, he has always used that discretion in favor of the subsidy, and gives as one of his reasons therefor that since the question, as fought out on the floor of the House, is whether the railroad should have this special subsidy or not, when the bill is passed, he considers that Congress wishes the railroads to have it. He construes it as mandatory. He knows as everybody knows that no man votes for the subsidy on account of the discretion provision but because he wishes the railroad to get the extra money. Granting, however, that Senator Simmons' provision makes it compulsory on the Postmaster General to exercise his discretion in granting or withholding the subsidy, everybody knows except perhaps the Senator, that the Postmaster General, who is chairman of the National Executive Commitee of the Republican Party, which has always favored ship subsidy, etc., railroad subsidies and all other species of legislative plunder for the favored few, will use that discretion in favor of the railroads. Our people are not so much interested as to how the chairman of the Republican National Committee in his capacity as Postmaster General will use his discretion in granting or refusing this bonus to the railroads, but what they wish to know is how Senators Simomns and Overman will exercise their right to vote as North Carolina Senators on the question of granting or refusing the $167,000 gift to the railroads. We wish to know whether our Senators will exercise their own judgment as representing the people of North Carolina in the matter or commit the rights and wishes of the people of the State on this question to the judgment of the Republican national chairman. Our people would much prefer their taking a bold stand on their own judgment for or against this legislative graft than to seek refuge in a provision which has so often served as a balm to the conscience of those who supported it without clear conviction of its justice.

"'It is to be hoped that Senator Simmons, who, as chairman of the Executive Committee, is the leader of Democracy of our State, will not repudiate the Democratic doctrine of 'Equal rights to all and special privileges to none' by his vote on this question either as a member of the Senate, Postoffice committee or as Senator on the floor. He is in a position to let the country know that the Democracy of the State still adheres to that doctrine and is opposed to bounties, subsidies, or public graft in all forms. He has a great opportunity and his friends hope that he will take advantage of it. At least he will have the opportunity of attempting to procure by amendment for the people of the State and the South along the routes of the Seaboard Air Line and Atlantic Coast Line, mail facilities equal to those enjoyed by the Southern Railroad. If the Southern Railroad is entitled to a special subsidy and the people along its line to extra mail facilities why are not the Seaboard and Atlantic Coast Line railroads entitled to special subsidies and the people living along their routes to the same 'extra mail facilities?'"

The impression might be created by all this talk that Senators Simmons and Overman would like to dodge the question but as we remarked at the beginning the whole thing is premature. It is hardly possible that North Carolina has a Senator or Representative at Washington who is likely to dodge any question. Senator Simmons may have had the best of motives in offering his amendment and at the same time may vote against the subsidy. Before Democrats tear their shirts over it, they had better wait and see. At any rate there may be room for honest differences of opinion as to the bonus or subsidy for fast mail service on the railroads, as the equivalent for the $167,000 probably is an expensive schedule. If it is a subsidy pure and simple, that is a different thing.

ANNULLING FAST SCHEDULE.

The Columbia Evening Record of Friday contained this very correct editorial paragraph:

"The Railroad Commission rather resents the action of the Coast Line in taking the Latta case to the United States Supreme Court after our own court had rendered its decision. If the Commission will only consider that this is an interstate matter and not a State one, we do not think members will find any sound justification for such a feeling. It is a question that is of interest to the whole country and not alone to Latta or the people of this State. It is one that ought to be settled definitely and positively and this can be done only by the court of last resort. It must be admitted that if Railroad Commissions have the right to make such trains stop at such places as Latta, for instance, whenever they wish they can make them stop at all, and that would defeat the very object of such trains—quick travel for through passengers."

The Record refers to the South Carolina Railroad Commission which, upon complaint of the citizens of the town of Latta, ordered the Coast Line to stop its fast Florida Special there. Such an order would annul a 'fast through service, and as a matter of course the South Carolina Commission will be overruled on the ground that it can issue no order interfering with interstate traffic. The position taken by the Commission of our sister Carolina is absurd on the face of it. The best it can do is to see that proper train service is provided within its own jurisdiction, which is the State of South Carolina.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Staples and took from the mantel of his bedroom, a valuable gold watch that was a family heirloom. So far no clew has been obtained as to the identity of the thief or thives. —The Third Creek bridge of the Southern Railway, seven miles west of Salisbury, caught fire Thursday and was considerably burned at each end. The damage was such as to prevent passage of trains until the necessary repairs could be made. SUIT AGAINST COAST LINE.

Passenger Asks Actual Damage For Mashed Thumb Last December.

A rather novel suit is set for hearing before Justice John J. Furlong tomorrow afternoon at 4 o'clock. Mr. R. E. Blake, junior member of the firm of R .H. Beery & Blake, of this city, through his attorney, William J. Bellamy, Esq., brings an action against the Atlantic Coast Line for $35 alleged actual damages suffered last December as the result of having his thumb caught in a passenger coach door while he was a passenger going to Castle Haynes on one of defendant's trains. Mr. Blake was at the door, but still inside the car, preparing to alight hurriedly, when the train came to a sudden stop and his finger was caught by the slammed door in consequence of the lurch of the coach. The end of a thumb was nearly mashed off and the plaintiff alleges that he suffered greatly and was obliged to contract physician's bills, etc., which he now demands that the company pay. Mr. Blake asks no punitive damages and the case is rare because of its being the first of its kind for so small an amount and the first to be brought in a magistrate's court.

Big Production at Academy of Music Tuesday Night.

Everything points to a big success of the Eagles' Mammoth Minstrels Tuesday night, and what will please the people more than all is that no long drawnout, tiresome and wornout amateur acts will be given. Two big vaudeville acts have been secured from the Wells circuit; also, the services of the Aeme Quartette. The Hollowbush Orchestra will be augmented to 10 pieces from the new musicians at the fort. The first part setting and electrical effects were rented from Philadelphia and the parade wardrobe from New York. The parade will include a hundred people, two brass bands a bugle corps and a drum corps. The tickets are on sale among the members and so far over 200 have been sold. A crowded house will be the result.

Dedication of St Matthews.

St. Matthew's English Lutheran church, on North Fourth street, will be dedicated to-day as will be seen by reference to the church notices elsewhere in to-day's Star. The sermon will be by Rev. W. A. Snyder, pastor of St. Paul's Evangelical Lutheran church, the congregation of which will worship with St. Matthew's on the occasion. Rev. C. W. Kegley and Rev. Henry W. A. Hanson will also take part in the services. It was hoped to have the beloved Dr. Bernheim, of Charlotte, present upon this occasion but at the last moment he found it impossible to attend. Special music has been prepared and a service of rare enjoyment awaits all who will attend.

The Colonial Dames.

The following notices are being mailed to members: "The annual meeting of the North Carolina Society of Colonial Dames of America will be held at the residence of Mrs. James Sprunt, 400 South Front street, Wilmington, May 9th, at half-past 10 o'clock. GREAT ANXIETY POSSESSES PARIS

Revolutionary Outbreak Feared Upon Approach of May Day Demonstration of Labor

TROOPS RUSHED TO CAPITOL

Revolutionaries or Anarchists Exploded Powerful Bomb Under Great Railway Bridge—Effect Felt Five Miles Away.

By Cable to The Morning Star.

Paris, April 28.—The government has completed final preparations for dealing with the May Day situation and is confident that the day will pass without serious disorder, but at the same time the public, which is not in the least re-assured by the elaborate military concentration, is showing great uneasiness.

This has been accentuated by the explosion of a bomb Friday night under the railroad bridge at Argenteuil, in the suburbs of Paris, which links the capital with Havre, and by an attempt this evening of a band of hundred striking jewelers to penetrate the populous center of the Place de L'Opera for the purpose of making a demonstration before the great establishments in the Rue de La Paix. The activity of the police in making more searches and seizures, although designed to insure the public safety, also has had the effect of increasing public apprehension, many persons believing that such extraordinary efforts indicate the seriousness of the situation. Government, military and police officials give the most positive assurances that order will be maintained and the calmer heads accept these statements; but, the nervous element of the city is hastily preparing for eventualities, some persons leaving town and taking their valuables with them and others laying in stores for an emergency. The scenes at the great supply stores are unprecedented, hundreds of persons invading them and clamoring for emergency supplies. The sensational press increases the unrest by publishing alarming reports of anarchist designs, while the serious press gives prominence to the military concentration and police plans, all of which leads the public to apprehend that something is about to happen.

The explosion of the bombs under the Argenteuil bridge is the first overt act in what the revolutionaries term "direct action." The bridge is a massive structure crossing the Seine six miles outside of St. Lazare station and hundreds of trains cross it daily. The military reinforcements that have been brought to Paris crossed the river on this bridge. The bomb used was cylinderical in shape with a slow fuse. The deafening explosion was heard for five miles. J

SALEMBURG ACADEMY.

Young Ladies of One Society Entertained Gentlemen of Another.

(Special Star Correspondence.)

Salemburg, N. C., April 28.—Last Saturday night at Salemburg Academy the young ladies of the Athenian Literary Society gave the young men of the Phylotectenic Literary Society a reception. The programme was as follows: A song "America," by the Society. Then Miss Lutie Underwood sweetly rendered on the piano "Moonlight on the Hudson." The debate came off. The query that was discussed—"Resolved, That agriculture is advancing faster in the United States than Manufacturing."

There has never been a better debated query in the Athenian Hall and much credit is due to the young speakers of the negative as their competitors are higher advanced. The speakers on the affirmative were: Misses Ruby Fisher, Nellie Spell, Eva Royal and Lutie Underwood. In the negative were: Misses Maggie Williams, Katherine Rivenbark, Emma Dempsey and Janie Williams. The judges were, Messrs. Joseph Davis Charles Robson, Dewitt Knight, Newton Edwards, a brother of Prof. Edwards, and Roscoe Turlington. Miss Katie Corbett acted as president and Miss Annie Wells as secretary. The judges retired to decide the question while Miss Ruby Fisher played "Sweet Voice of Spring." Then the judges came back after making a beautiful little speech which filled the hearts of the victorious ones with much joy. Mr. Newton Edwards said: "This query has been well debated and it was hard to decide which side to give it to, as the question was equally debated." He also added that "Greek had met Greek." After the programme was ended, fruits and candies were served with the waiters while the merry young men and ladies "mingled together" as the president expressed it. The visitors present were Rev. and Mrs. Tate Tew, Prof. and Mrs. C. C. Howard and Mr. Frank Parker, one of Salemburg's most worthy men. Of course, Prof. G. F. Edwards is always present.

YOU FIND THE GIRL. WE'LL FURNISH THE HOME.

The first thing necessary for the man contemplating marriage is a willing girl. He has to do his own wooing—we can't help him there. But after she has whispered "Yes"—(Why do they always "whisper" instead of shouting?) and the affair is all settled, then comes the important question of furnishing a home for the happy pair.
And that is where our help is needed. Whether they have their love lit eyes upon a small flat or a large mansion, we can furnish it for them quickly elegantly, cosily and economically—or otherwise—according to their desires and the elasticity of the pocket-book. And if they go anywhere else they won't be so well served.

ACT QUICKLY.

Delay Has Been Dangerous in Wilmington.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doans' Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

R. A. Biddle, clerk at 19 Market street, residing at 606 Castle street, says: "I used Doan's Kidney Pills myself for kidney trouble and my wife who also suffered from backache also used them. I never knew anything to act so quickly. I have suffered quite a long time with my back and kidneys. The kidney secretions were very dark and full of sediment. My wife also complained of her back, and when we read of Doan's Kidney Pills in our newspapers I went to R. R. Bellamy's drug store and got a box. We used them with the best results. In my case the kidney secretion cleared up and the pains left my back. We have neither of us complained since taking Doan's Kidney Pills, and it is with pleasure that I recommend them at every opportunty."

Try Cardui

for misery in the back, irregular catamenial periods, falling feelings, headache, cold hands and feet, dizziness, cramps, nervousness, irritability, and all disorders of the womanly organs or functions. Working girls, in stores, offices and factories, school teachers, houseworkers, etc., who overtax their strength, by standing, lifting, sewing, sweeping, etc., suffer very commonly from diseases peculiar to their sex, and should treat themselves, before their condition becomes dangerous, with that well-known and successful medicine for sick women

WINE OF CARDUI Woman's Relief

"Live or die" writes Sarah G. Butts, the popular school teacher of White Plains, Va., "I feel sure death is no worse than the pains I suffered periodically. My trouble was a female disorder of the severest kind. I had taken so many medicines without relief that I was almost sunk in despair. Four bottles of Cardui gave me relief, and I am stronger now than in fifteen years. Cardui is certainly a panacea for female troubles. May God bless your every effort and broaden your territory until you have reached every suffering woman." *Mrs Sarah G. Butts*

An event of much interest was the marriage of Miss Lucy Cole Wednesday night to Rev. Plato T. Durham, pastor of the Trinity Methodist church of Charlotte, which took place at the Rockingham Methodist church at 9 o'clock. Miss Mary Cole, sister of the bride was maid of honor, and W. T. Dixon, of Raleigh, brother of the groom, was best man. The wedding was very pretty and the church decorations added much to the beauty of the event. Ferns and dogwood blossoms were here and there, a bank of which nearly concealed the choir which sang Lohengrin's bridal chorus prior to the entrance of the bridal party. The ushers, Messrs. S. J. Durham, J. C. McNeill, John Everett and T. C. Lee, Jr., led the bridal procession and they were followed by Misses Alice Cole, Minnie Little, Susie Russell, Lily Dockery, Anna Leak Ledbetter and Emma Gray Ledbetter, who were the flower girls. They carried baskets of fragrant flowers which were strewn along the aisle way in the path of the bride. Miss Lucy Cobb, proceded the bride who entered on the arm of her father, Rev. J. N. Cole. The will of the late Miss Annie Kenan has been filed and probated in the Superior court at Kenansville, and by it she gives her share of the Kenan land and her personal property to her brother and nieces and nephews—in the will expressing the wish that all of them have something from the "old home," and remembers in a substantial way her faithful servant, Martha Cooper. She also leaves a sum of money to the Grove Presbyterian church, of that place. The old home is given to her niece Mrs. Mary L. Flagler, and it is her wish that it be kept as near as possible as she had it in her life time as a place where members of the family and their friends can visit. Col. T. S. Kenan, her brother, is made the executor of the will. The bequests show the lovable and generous disposition of Miss Kenan who was known everywhere for her deeds of kindness and sweet Christian character.

As a result of the burning of 3,113 bales of cotton on the railroad grounds near the Atlantic Compress in Columbus last November, Inman & Co., the well-known cotton firm, last week filed in Muscogee Superior Court suit against the Central of Georgia Railway Company for $230,000. The plaintiff claims that the cotton was negligently dumped by the Central Railway at a point near its round house, where sparks and cinders were liable to fall from switch engines and also from the roundhouse, and while it was in this exposed position, awaiting compress, sparks from a switch engine fell in the cotton. It is alleged that cotton belonging to Inman & Co. to the value of $195,000 was burned and that the plaintiff was damaged thereby in the sum of $230,000. It is alleged that the switch engines used in the Central yards were faulty and defective, so that they emitted more and larger sparks and cinders than an engine in good condition would have emitted. It is averred that the Central of Georgia Railway owns the tracks leading to the Atlantic Compress and undertakes to deliver all cotton delivered there, making a charge for the same, and that the cotton burned was in its custody at the time of its destruction.

The Conway, S. C., Herald of the past week says: "The passenger train last Saturday afternoon brought in W. N. Royall, General Manager of the Atlantic Coast Line Railroad; E. B. Pleasants, Chief Engineer; and General Superintendent Anderson, accompanied by James H. Chadbourn, a well known railroad man, who has felt a great interest in Conway and Horry county, being the builder of the old Conway branch, the first railroad the town ever had. They came in on a special car and only remained a short time, returning to Wilmington on the afternoon train. The purpose of the visit of these officials was to see Conway and thus be able the better to decide what improvements the company can put in. Several matters are in contemplation, the removal of the track from the main street we are told. Conway will expect some results from the visit, and no doubt she is entitled to something."

GROWTH OF SOUTHERN RAILROADS.

Among the railroads of the South there is no dearth of fact to furnish evidence of the swift march of development in this section, says the Manufacturers' Record. This rapid progress is perhaps no more clearly indicated than it is by the work that is being done towards increasing the facilities of existing transportation lines. Only recently the Southern Railway let a contract for about $5,000,000 worth of second-track work to relieve congestion on crowded divisions of its system and now President Stevens of the Chesapeake & Ohio Railway has announced his intention to award contracts for about $1,000,000 worth of second track in addition to the large amount previously awarded. Menwhile amount previously awarded Meanwhile forts toward double-tracking the entire line from Washington to Atlanta, and the Norfolk & Western is still going ahead with second-track work on its main line. Futhermore, it is reported that the Southern Railway is preparing to doubletrack its line between Atlanta and Birmingham, Ala., at the same time revising portions of the route, this improvement to be provided for the better handling of the fast growing traffic out of the Birmingham district.

There is scarcely a prominent railroad in the South which is not building some second track, and on certain roads entire divisions have been made double lines. For instance, the Washington Southern and Richmond, Fredericksburg & Potomac route between Washington, D. C., and Richmond, Va., is now double-tracked, an improvement which was made necessary by the fact that this road is like a bottle neck through which all traffic between the North and the eastern part of the South must pass. Among other roads which are doing second-track work are the Atlantic Coast Line, the Illinois Central and the Queen & Crescent. A comparatively short section of the Baltimore & Ohio Railroad, known as the Metropolitan branch, and extending from Washington, D. C., to Point of Rocks, Md., but which is really the main line for passenger traffic, has been made double-track recently, and the company also has other large improvement plans to be carried out, an issue of over $27,000,000 of new stock for improvement purposes having just then decided upon. It may also be noted that the Washington, Baltimore & Annapolis Electric Railway, contract for which has just been awarded will be double-tracked between Baltimore and Washington from the very beginning.

Other evidence of the pressure of demands upon railroad facilities in the South is also to be found in the plans for new union stations at Birmingham, Ala., New Orleans, Memphis Little Rock, Ark., and other points, not to mention the great union station at Washington, D. C., that is now rapidly approaching completion. And while the pressure upon the passenger facilities of the railroads, as shown by these depot projects, is very great, the demand upon the freight capacity of the lines is even greater. At all imaportant points there is either work under way or plans in preparation for the enlargement of freight terminals, for increasing warehouse capacity and in other ways for expediting the movement of freight traffic. The large railroad yard near Alexandria, Va., is another testimonial of the growth of business in the South. There will be classified and distributed the cars which go between the Northern and Eastern States and the State to the South of the Potomac. The large yards at Memphis, Tenn., constitute another great distributing point or freight-classification terminal. The New Orleans freight situation with respect to terminals on the water-front is constantly demanding attention, and plans for further enlargement of existing depots, warehouses, docks and wharves are in contemplation or preparation by more than one company whose lines enter that city. A similiar state of affairs exists at Galveston. Further east at Mobile the enlargement of Gulf terminals is in prospect, and at Pensacola and Jacksonville other work is proposed or has been completed, as the case may be, for facilitating tidewater shipments. The plans of the Atlantic & Birmingham Railway to make a great port at Brunswick, Ga., must also not be overlooked; neither must the constant improvement that is being done in and around Norfolk, Portsmouth and Newport News. At Baltimore the Baltimore & Ohio Railroad Railroad will build another large pier at its Locust Point terminals, and the Western Maryland is also increasing its seaport facilities. All the companies whose lines enter Baltimore will also have accommodation in the great docks that are to be built by the city government. Yet these are not all of the tidewater improvements which are either under way or proposed in the South. Port Arthur, Tex., Gulport, Miss., Savannah, Ga., Charleston, S. C., and, in fact, practically every port is demanding and securing enlargements of its freight-handling capacity.

The growth of business on the railroads is also shown by the revision of various lines for eliminating curves and grades so that their freight-train capacity can be materially enlarged not only for purposes of economy, but for facilitating the handling of business. The introduction of block signaling systems and the use of telephone lines, in addition to telegraphs, for the purpose of increasing the train capacity of divisions that have become overcrowded, constitute additional testimony of how railroad traffic is advancing even far beyond expectations throughout the South.

Schlitz beer is aged in glass enameled steel tanks for months before it is marketed. Fermentation is finished long before you get it.

Immediately following the bride-elect entered on the arm of her maid of honor, Miss Isla Ward, of Atkinson, N. C. The impressive ring service of the Presbyterian church was performed by Rev. W. P. M. In honor of Miss Mabel Powers, of Atlanta, who has been the recipient of many attentions from her friends in this city, a most beautiful card party was given on Thursday evening by Miss Emma Northrop. The Northrop home was beautifully decorated with smilax, in which were placed quantities of crimson roses carrying out in the general decorations the color scheme of red and green. In the hall and on the mantles in the connecting rooms, were a profusion of red roses the reflection of which were caught in the large mirrors giving a suggestion of a pretty exhibit of handsome flowers. In the rooms were numerous red candles, the soft glow of which was tinged by the rep crepe shades which surmounted them. Additional touches of prettiness were lent to the scene by Japanese lanterns, the predominating colors of which added to the color idea. Six handed euchre was played and tempting refreshments in courses were served. The lady's prize was a white lace fan, while the consolation prize was a Japanese parasol. The gentleman's prize was a pretty watch fob and the booby prize a pair of toy reins. The ladies prize was awarded to Miss Marguerite Walker and Mr. R. A. Williams captured the watch fob. An exceedingly handsome moulded bronze memorial tablet has been placed in the chancel of St. James' Episcopal church to the left of the Bishop's chair, in memory of the late Bishop Watson. The memorial is one of Tiffany's masterpieces and is surrounded by a black marble frame about two and a half inches wide, the whole resting on a slab of block marble. The tablet is three feet long by two feet wide, the polished letters standing in bas relief. Surmounting the inscription is a Bishop's Mitre from behind which projects the Bishop's crook, or staff, and a large key, which are the emblems of a Bishop's authority. Under all is the following inscription:

STRICKEN CITY OF SAN FRANCISCO

Relief Committee Disheartened and Disappointed Over Statement of Roosevelt

GOVERNMENT FUNDS SHORT

Only $300,000 of $2,500,000 Appropriation Available—Looters Carrying Away Valuables from Destroyed Residences.

By Wire to The Morning Star.

San Francisco, April 28.—Surprise was caused to-day when James D. Phelan, chairman of the finance committee, announced to the citizens' committee that he had been given to understand by Secretary of Commerce Victor H. Metcalf, the representative of President Roosevelt, that only $300,000 of the $2,500,000 appropriated by Congress for the relief of San Francisco, was available, and that this sum represented the exent of financial assistance that might be expected from that source.

Secretary Metcalf corroberated Mr. Phelan's statement. Mr. Phelan then said that there was only $518,000 available cash in his order at the mint and the strictest econmy would be necessary. "We need money," said Mr. Phelan," and the country should not be led into the belief that millions are on hand to relieve the destitute people."

Gaiety is No More.

The question of the use of Federal troops to assist in the preservation of the peace and good order of the city developed a unanimity of opinion among the civilian and military authorities, and at the request of Mayor Schmitz the committee asked that the troops be permitted to remain.

Absolute order still prevails in San Francisco. The great city which but a brief time since was known the world over as the "Second Paris," so wide was its reputation for gaiety and pleasure seeking, has settled into the quietest of communities in whch the population is not seen abroad after the first hours of darkness. While the most rigid patrol system is maintained everywhere, the people are free to come and go as they pleace, but as there are no more places of recreation to attract them, few venture abroad at night.

Sight Seers Are Nuisance.

The influx of sight-seers is adding to the work of the authorities and to the discomfort of those still living in San Francisco. Thousands of these people crowd the ferry boats, block the few open streets with all sorts of useless vehicles, and seriously interfere with those engaged in relief work. To-day they added to the terrific jam at the main ferry station and choked the narrow passages cleared in a few streets for vehicles. They overran ruins of building wherever safety woud permit and were ruthless in their frantic efforts to seize on some article of historic or intrinsic value and cart it away.

Relic Hunting Vandals.

Throughout Chinatown and along Kearney street, where bazaars filled with oriental wares once stood, the harvest of relics has been particularly rich. Men, women and children, fearing neither the presence of military nor the danger of crumbling walls, swarm about the ruins with great profit to themselves. In many of the Chinese and Japanese stores when the fire approached, the proprietors buried a large part of their stock in the basement intending to return after the fire had passed and recover what they could. They never came back. The terrors of the rocking earth and the sweep of flames were too much for their minds, but the relic hunters came, and everything that was of any use or value has been carried away.

Many Residences Looted.

The work of the looter has not been confined alone to the ruins of stores. Many residence sites have been worked over, and articles of gold, silver and China carried away. At the ruins of the Hopkins Art Institute and the Stanford residence, guards are maintained and yesterday two women who had been gathering relics at houses along Pine and California streets, complained against the refusal of the guards to permit them to enter the Fulns where the Stanford and the Croker home once stood.

Among the ruins of many family hotels and in the ashes of pawn shops relic hunters gather trinkets and unset jewels. There is no limit to the endurance of the looters, nor to the efforts they will make to find something of value.

Great Libraries Destroyed.

Among the greatest losses resulting from the fire are the magnificent libraries of San Francisco. Library after library holding in all more than a million volumes disappeared in the fire. Great collections of the invaluable records came to the pitiful end of making food for flames. No accurate estimate can be made of the monetary worth of the books destroyed, but it is believed that their market value was in excess of $3,000,000. The public library was the eighth in size in the United States.

333 Bodies Recovered.

Three hundred and thirty-three bodies of victims of the recent earthquake and fire have now been found by Coroner Walsh and his assistants. Many of the dead have been identified. All that were buried in the public squares during the days of the fire have been removed, to the several cemeteries of the city. The coroner's data is fairly accurate though his work and his reports are not yet complete.

Washington, April 28.—General Greeley has telegraphed from San Francisco, 21 additional deaths.

Federal Troops to Remain.

Washington, April 28.—Governor Pardee, of California, has accepted the President's suggestion as to the use of Federal troops in that State and has filed a formal application for their emplyment, which has been granted. It is stated at the War Department that this removes any doubt as to the legality of the use of the troops, but will not in any way change the existing status.

Prophet Dowie went from Chicago to Zion City yesterday for the fist time in severa months. A small crowd, mostly women, were at the station, and he made an address, telling them that charges against him were not true. Mrs. Dowie welcomed the prophet home.

Baltimore last night had within her borders practically every archbishop and bishop of the Roman Catholic Church in the United States, who are there to join in the celebration to-day and Monday, of the centenary of the laying of the corner-stone of Baltimore cathedral. Very eleborate ceremonies have been arranged.

At Asheville yesterday's two sessions of the Woman's Home Mission Board of the Methodist Episcopal Church, South, were devoted entirely to business discussions, and the reading of the various committee reports. No meeting was held last night. Many of the delegates were driven over the Baltimore estate yesterday afternoon.

The supposed explosion of a gas stove in the dining department of the Norfolk Urotestant Hospital, caused the destruction of the main building of that institution last night. The flames spread quickly and almost every piece of fire fighting apparatus in the city was on the scene. All of the patients were rescued. The damage is estimated at $80,000. A subscription has been started for rebuilding the institution.

The Senate Committee on Inter-Oceanic Canals in considering Panama canal legislation in Washington yesterday considered the reduction of the $30,000 salary of Chairman Shonts of the Canal Commission as well as other high salaries. It is said that Shonts will resign if his salary is cut. The committee unanimously agree that an officer should not hold but one office, it having been discovered that overnor Magoon of the Canal zone holds four offices.

At Clarksburg, W. Va., yesterday the United States grand jury returned five indictments against the Baltimore and Ohio Railroad Company for alleged discriminations against the Philippi, Penn., Meadow Brooks, and Hutchison Coal Companies in the distribution of cars. The maximum fine attached upon conviction is $5,000.

The Russian elections on Friday show that the tide against the government is rising instead of subsiding, for instead of more conservative element, the candidates elected are even more radical in their opinions than those chosen April 8th.

The chief of police who played such a prominent role in the October massacres at Odessa, and a policeman, were assassinated by revolutionists there yesterday in broad day light. The plot was wide reaching and contemplated also the assassination of Assistant Chief of Police Poltavtchenko and several other policemen. A young girl named Jerebtzova throw a bomb at Poltavtchenko who was on the way to the hospital to visit one of the wounded policemen. Her aim was poor and Poltavtchenko was unhurt. The girl was seriously wounded by Poltavtchenko's orderly.

MOUNT VESUVIUS CAUSES RUIN.

Heavy Rains Send Floods and Mud to Destroy Houses.

By Cable to The Morning Star.

Naples, April. 28.—Oceans of mud brought from the mountain side by torrential rains Friday night are practically submerging the Vesuvius region The situation can only be described as a black misery and if it rains again soon, it will be absolutely hopeless. The recent erupton of Mount Vesuvius having closed the old water channels, a torrent of rain Friday night had thousands of outlets in all directions, and, carrying black mud with it, broke upon bridges, weakened houses at the bases as the ashes had already done on the roofs, inundated streets, contaminated drinking water and attacked all that the ingenuity of man had erected for his own benefit.

LEADER WILLIAMS ON PROTECTION

Policy Denounced as Rank Socialism, Rank Agrarianism and Rank Communion

WAS NETTLED BY QUESTIONS

Republicans Worried Speaker With Interferences, But He Made It Warm for Them — House to Hold Memorial Session.

By Wire to The Morning Star.

Washington, April 28.—Mr. Williams, the minority leader of the House, concluded his speech begun yesterday, occuping the floor for two hours. With the experience of many interruptions of the day before, the leader of the minority threw himself upon the mercy of the body and asked that he be not interrupted. Generally his request was observed but here and there questions were put to him by Mr. Boutell, of Illinois, Mr. Hamilton, of Michigan and C. B. Landis, of Indiana, which nettled the Speaker not a little. Mr. Williams was unable to conclude on account of a severe attack of neuralgia, contenting himself with what had been said against existing tarriff schedules and availing himself of the privilege to enlarge upon the subject in his published speech.

Mr. Cushman, of Washington, replied to Mr. Williams, but was taken off the floor before he had really got started owing to the former action of the House, agreeing to conclude general debate on the agricultural appropriation bill at 3:30 o'clock, at which time the House adjourned until to-morrow when eulogies will be delivered on the life of the late Representative Pinckney, of Texas.

Mr. Williams again discussed the speech made by Mr. Hepburn, of Iowa. He took exception to Mr. Hepburn's "dumping" theory, a word, he said, that has come into use much like the "surplus", used in the disposition of goods abroad. He said that the selling of goods abroad was neither a "dumping" process of a "surplus" process, but was an "exploitation" process. He declared that the American steel "trust" had been "dumping" their goods in foreign markets for the past ten years and there was indubitable proof that the steel people did sell their product lower in foreign markets than in the home market. He had no sympathy with the statement that the lower price was obtained abroad because of the over-production in this country. The fact remains, he said, that prices were greater at home than abroad. Mr. Williams, after holding the attention of the House for the greater part of two days, concluded his speech with the statement that "protectionism is rank socialism, rank agrarianism and rank communism."

Mr. Sims, of Tennessee, said he had just commenced to fight in favor of the patrons of rural rural free delivery building their own rural boxes instead of being compelled to purchase boxes authorized by the post-office department.

The Senate.

Washington, April 28.—The Senate to-day passed the Indian Appropriation bill. Several hours were devoted to a spirited debate on the question of removing the restrictions from the allotted lands of the Choctaws, Cherokees, Chickasaws, Creeks and Seminoles except full bloods. After an amendment was offered and amended to suit those who favored it, a point of order was made against the provision and sustained by the Vice President.

Mr. Spooner was the particular champion of the Indian in preventing the removal of the restriction, but Messrs. Teller, Long and others who favored the amendment, charged that he was misguided in his zeal and the Indians themselves wanted to be permitted to seek a market for their surplus lands.

Mr. Spooner said the entire argument appeared to be for the white man, with nothing for the Indian.
